Visit the [Profexions Workshop Series + Handouts](#) in [THE NOW](#) to sort through your current emphasis, cosmic guidance + invitations so you know where **to focus**. Keep up with TRANSITS affecting your Timelord in [Transits](#) as well as dates to be mindful of + ones that are lucky.

What House is the South Node in Libra activating for you? What are you being called to decrease, release, purge, compost? What no longer ignites joy, is outdated, or part of old selves? Simplify. Let go.

What House is the North Node in Aries activating for you? What are you craving? What are you feeling pulled to increase or invest more energy in during this cycle?

Do you have any planets or angles (w/ Gates) in Aries/Libra at 20* or below? How might these themes weave in? (especially when they take a direct hit from the nodes). Direct conjunctions will result in a greater desire to increase that energy... be mindful of going to extremes (NN) or with the South Node what asks for offloading.

What will Jupiter trigger for you this year in Gemini? Where will it bestow some blessings, invite growth, new experiences + expansion? How can you maximize the time we have left in Taurus?

With the Saturn/Jupiter square how will the relationship between your Gemini + Pisces Houses be influenced? How might you support, channel + balance ?

What Houses will be activated by the Eclipses? Is one of them a profected house? Is the Sun or Moon your Timelord this year?

Where is Pisces in your chart? Where is Saturn continuing to invite structure, maturation? What foundations + boundaries might best serve your unique sensitivity? What might be ending so something new can emerge? How can you most be of service here? Are you surrendering to the mystery?
