THE MAGHEALY

QUANTUM SELF CARE

QUANTUM SOVEREIGNTY

THE PHYSICAL BODY,
ENERGETICS, SPACES + WATERS

Auric Alchemy

what is MagHealy?

MagHealy is the perfect compliment to the personal Healy. It works through Pulsed Electro-Magnetic Quantum Analyzed Frequency. It creates a magnetic field by using two coils within which can generate two independent frequency modulated magnetic fields. This is incredibly synergistic with the personal Healy, essentially different instruments that when combined create a harmonious orchestra.

Healy focuses on the bioenergetic field of the individual addressing physical, mental, emotional + energetic imbalances through frequency specific micro-current, vector potential + scalar waves. MagHealy works in the magnetic field harmonizing your body + mind, your environment, and imprinting your water thru four program categories: Classic, Water, Atmosphere + McMakin.

You can use both the Healy + the MagHealy individually, both working through different deliveries and focusing through different selected frequencies. And, together they create a unique Resonance Effect.

the programs

on the

body

The Classics are foundational to the MagHealy. You can use them to create harmonization in the bioenergetic field.

A Favorite:

The Earth's frequency is incredibly healing and one of the reasons humans continue to get sicker is our ever growing disconnect from the Shumann Resonance (the Earth's frequency). We can't all spend hours/day with our bare bodies on the Earth - but when we do - it is scientifically proven to reduce inflammation (a root of dis-ease), one of the reasons this program is a crowd favorite, in addition to the relaxed + grounding vibes.

on the body

Carolyn McMakin uses dual frequencies to target specific areas on the body. She has been doing clinical research for decades with great success and contributed to the creation of the Mag, as well as specifically creating this set of programs.

After discovering frequency and using it with patients, she actually left work at a pain management clinic when they informed her they didn't want her to actually cure the patients. See resources for more info on this powerhouse of a lady and why these programs are highly sought after.

A Favorite:

Vagus Harmony - in our current world we can all use a little (or a lot of) nervous system support. Try running this one on your Mag while also running Inner Strength on your personal Healy in the Mental Balance set.

atmosphere

the energy of spaces

The energy of our space actually accounts for 33% of our connection to ease, abundance and luck, what is deemed our Earth Luck. There is no boundary between you and the Universal field. Practices like Feng Shui + aligning with your unique environment can be simple ways to offer yourself sweet support and alignment, as is this set of programs. PEMF or pulsed electromagnetic frequency harmonizes the energy in the environment, and those in it. While it has a 10ft radius, Marcus speaks about it like the Butterfly effect. Influencing our environment influences our own vibration, the energy around us which ripples out, the energy of those we encounter, the energy of those they encounter. It is a broadcast of high vibes. A contribution to our World. As is all of the energetic work (or otherwise) we do for ourselves.

A Favorite:

Chakra Balancing or Energy Cleansing while meditating, burning sacred herbs, or doing Breathwork. Energy cleansing is also good after being sick, or an argument to clear the vibes.

imprinting water

Water is life. It is the pathway (along with the fascia which is crystalline water) for which electrical signaling + frequency travels and traverses our bodies. It is also memory in our bodies, a storage house. Water allows us to deliver all frequencies, so how powerful to also deliver a set of frequencies to inform our drinking water, imprinting the quantum analyzed frequencies within the memory of the water.

A Favorite:

Kidney Harmony - the kidneys are the house of our Jing or energy. This is why you will often hear the founder, Marcus Schmieke, speak about ALL of the kidney programs as his faves. When our kidney jing is depleted it results in faster aging, fear, a lack of energy, an imbalance of fluids, negative impacts to many systems including reproductive health, our cognitive function, our bones + the foundations of our constitution.

Heart Opening is also a big crowd favorite.

imagining a World
where every person,
family + business have a
MagHealy ✨

"Your self love is medicine for the earth. Your healing lifts up the ocean of existence. When you heal we all heal." -Yung Pueblo
